

# Hikmat To'rayev

Frontend Engineer | Bukhara, Uzbekistan

thravshanovich@gmail.com

+998 90 718 63 56

## Education

### **Bukhara Institute of Engineering Technology. Bukhara, Uzbekistan**

Sep 2017 – Aug 2021

Information and communication systems of technological process management

Web programming, Software Architecture, Database Management Systems.

## Experience

### **Frontend Engineer**

Feb 2022– Nov 2022

- A document exchange system has been developed throughout Uzbekistan.
- Primary technologies: HTML,CSS, Bootstrap, Javascript, ReactJS, Redux, Redux-toolkit.
- Worked with backend engineers to develop REST API contracts and document them using Swagger (via axios).
- Constantly optimizing the system, preventing component re-rendering through memorization

### **Frontend Engineer**

Dec 2022– *Present*

- A system dealing with pre-house sales is being created.
- Primary technologies: HTML,CSS, Bootstrap, Javascript, ReactJS, Redux, Redux-toolkit.
- Worked with backend engineers to develop REST API contracts and document them using Swagger (via axios).

## Projects

### **Real-time data exchange**

Dec 2021 – Jan 2022

- A system for 2-person chat, group chat, leaving comments and likes, blocking users, and sending notifications has been created.
- Data is transmitted in real time (with Socket.IO).
- Nodejs were used for the backend part.

### **Document sharing system**

Feb 2022– Nov 2022

- 10 modules of the system consisting of 32 modules have been created
- The main goal is to develop an optimal way of exchanging documents. They are currently using this system
